

SpiritoActive ONE

Ammonium phosphate, inactivated yeast, thiamine (0.1%)

DESCRIPTION

SpiritoActive ONE is an essential addition to the fermentation process, providing vital elements and nutrients that stimulate yeast growth and ensure a healthy fermentation. This product helps yeast completely consume all sugars, leading to a successful and efficient fermentation.

SpiritoActive ONE can be used at the beginning of the fermentation process in any type of substrate, including grain, sugar cane, grape juice, molasses, or any other base. Simply add it along with selected yeast to give fermentation the best possible start. Additionally, SpiritoActive ONE is incredibly useful for re-starting stuck fermentations, giving the process a much-needed boost when things aren't going as planned.

Using SpiritoActive ONE ensures a smooth and complete fermentation, resulting in a high-quality final product every time.

DOSAGE

20-50 g/hL (1.7-4.2 lb/1,000 gal)

PACKAGING & STORAGE

0.5 kg

Sealed package: store in a cool, dry, and well-ventilated area.

Opened package: carefully reseal and store as indicated above.

COMPLIANCE

This product may be subject to regulatory restrictions in certain jurisdictions and may vary by country. The user is responsible for determining and ensuring compliance with all applicable laws and regulations and must verify local applicability.

The indications given here correspond to the current state of our knowledge and experience, however they do not relieve the user from compliance with safety and protection regulations or from improper use of the product.
