

SpiritoTouch

FRT

Condensed wood extract

DESCRIPTION

SpiritoTouch FRT is crafted from the fruit extraction of cherry wood (*Prunus avium*), which remains untoasted to preserve its natural qualities. This extract is characterized by an intense and elegant fruit aromatic profile, typical of cherry, adding a distinctive and refined touch to spirits. It enhances viscosity, length, and volume, creating a richer and more satisfying mouthfeel.

SpiritoTouch FRT is ideal to elevate fruit aromas and freshness in spirits. It can be added during the ageing process or just before bottling to provide that final, perfect touch. On the palate, it significantly improves pleasantness, enhancing volume, viscosity, and length, all thanks to its pure and natural composition. This makes each sip full of depth and character.

DOSAGE

5-50 g/hL (0.4-4.2 lb/1,000 gal)

PACKAGING & STORAGE

1 kg

Sealed package: store in a cool, dry, and well-ventilated area.

Opened package: carefully reseal and store as indicated above.

COMPLIANCE

This product may be subject to regulatory restrictions in certain jurisdictions and may vary by country. The user is responsible for determining and ensuring compliance with all applicable laws and regulations and must verify local applicability.

The indications given here correspond to the current state of our knowledge and experience, however they do not relieve the user from compliance with safety and protection regulations or from improper use of the product.
