

SpiritoTouch

SWT

Ellagic oak extract

DESCRIPTION

SpiritoTouch SWT is sourced from American oak (*Quercus alba*) with a medium-low level of toasting. This pure extract features a sweet aromatic profile, characterized by refined notes of vanilla, whiskey lactones, caramel, and honey, akin to new American barrels. It possesses the ability to soften the alcohol perception and enhance mouthfeel, thereby making each sip smoother and more enjoyable.

SpiritoTouch SWT can be used during ageing or immediately prior to bottling to impart a final touch to the spirit. It enhances sweet aromas and improves the overall mouthfeel, ensuring a well-rounded and satisfying drinking experience. Whether the goal is to refine the flavor or add a touch of sweetness, SpiritoTouch SWT is an excellent choice for elevating the quality of spirits.

DOSAGE

5-50 g/hL (0,2-2 g/gal)

PACKAGING & STORAGE

1 kg

Sealed package: store in a cool, dry, and well-ventilated area.

Opened package: carefully reseal and store as indicated above.

COMPLIANCE

This product may be subject to regulatory restrictions in certain jurisdictions and may vary by country. The user is responsible for determining and ensuring compliance with all applicable laws and regulations and must verify local applicability.

The indications given here correspond to the current state of our knowledge and experience, however they do not relieve the user from compliance with safety and protection regulations or from improper use of the product.
